Continuous Control

FOR TEAMS RUNNING SALESFORCE AGENTFORCE REVENUE MANAGEMENT + NETSUITE

The easy button for connecting Agentforce Revenue Management and NetSuite.

Continuous Control is a **prebuilt pair of native apps**, one on Salesforce and one a NetSuite SuiteApp, that keeps Agentforce Revenue Management and your NetSuite books **in lockstep, automatically**. No middleware required. No custom integration project.

salesforce — easy — ORACLE NetSuite

Continuous Control

WHAT YOU GET

Native transactions, auto-synced
Invoices, credit memos, payments & refunds post as **native NetSuite transactions**, automatically.

Totals match to the penny
Every invoice and payment ties out. **NetSuite equals Salesforce, exactly.**

Revenue management, your way
Built-in revenue recognition on **NetSuite Financials**, or feed **NetSuite ARM**.

Prebuilt integration
Every mapping ships ready. **Admin-editable.**

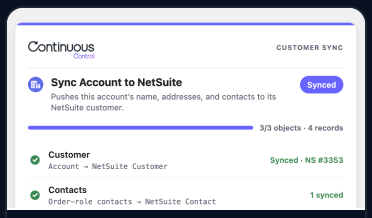

Built into Salesforce
Lightning cards on every object + **Flow actions** for automation.

Full observability
Every sync tracked **end to end**, with **one-click retry**.

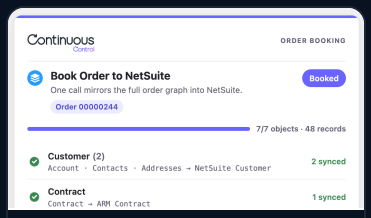

COMPATIBLE WITH

SALESFORCE AGENTFORCE REVENUE MANAGEMENT · NETSUITE FINANCIALS · NETSUITE ARM
